

ITLS OHIO EMERGENCY CARE CONFERENCE

Ohio's Premier Pre-hospital Conference

Earn up to 8 EMS CE hours at the pre-conference workshops and up to 16 EMS CE hours at the conference! ITLS Ohio is an approved provider of EMS Continuing Education (State of Ohio 2069)

New this year!
Approved for AMA PRA Category 1 Credits™

FEBRUARY 27 – FEBRUARY 29, 2020

2020 Highlights

- **Location:** DoubleTree by Hilton, Worthington, Ohio
- **Date:** February 27-29, 2020
- **1 day of pre-conference workshops — February 27**
- **Conference starts at 8:00 am February 28**
- **Daily Registration options**
- **Networking Opportunities with Exhibitors**

ITLS OHIO EMERGENCY CARE CONFERENCE

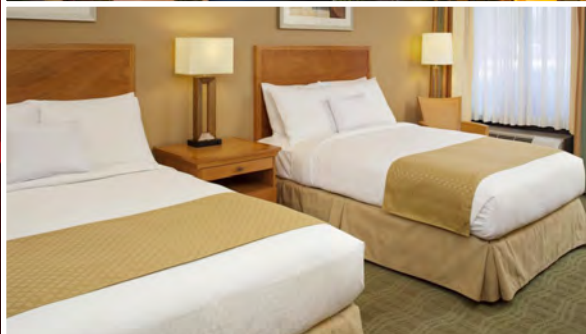

Ohio's Premier Pre-hospital Conference

FEBRUARY 27-29, 2020

DOUBLETREE BY HILTON, WORTHINGTON, OHIO

Photos by Nancy Ross

DOUBLETREE BY HILTON

175 Hutchinson Ave., Columbus, OH 43235

Phone: 614-885-3334 or 1-800-870-0349

Reserve room online at: tinyurl.com/2020ECC

Group Code: **ITLS Ohio Emergency Care Conference**

Reservation Deadline: **Feb 10, 2020 (or until the block is sold out)**

Room Rate: **\$119 (plus applicable taxes)**

A special thank you to:

- Brian Bugbee, NREMT-P, EMSI, LMT
- Rita Chambers, BBA, NRP, EMSI
- Joseph Farmer, Paramedic
- Susan Forgacs, RN, EMT-P
- Mary Ann Forrester, BSN, RN, NRP, EMSI
- Mary Hancock, MD, FACEP
- Shelby Loudon, BS, EMT-P, EMSI
- Steve Maffin, BS, EMT-P
- Lou Ann Metz, BS, NRP, OFE
- James Ross, Jr., ATS, FF, Paramedic
- Nancy Ross, NRP
- Brad Wimmer, NREMT-P, FP-C, EMSI

Disclaimer

ITLS Ohio makes every effort to ensure that the speakers at Chapter-sponsored seminars are knowledgeable authorities in their field. Course attendees are nevertheless advised that the statements and opinions expressed by course speakers are those of the speakers, not of ITLS Ohio. The speakers' statements and/or opinions should not be construed as ITLS Ohio policy or recommendations and ITLS Ohio disclaims any liability or responsibility for the consequences of any actions taken in reliance upon those statements or opinions. or organizations other than ITLS Ohio are not endorsed by the Chapter. Further, ITLS Ohio disclaims any liability or responsibility for the professional or personal use of such products/services.

CME Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Emergency Physicians and Ohio ACEP. The American College of Emergency Physicians is accredited by the ACCME to provide continuing medical education for physicians.

The American College of Emergency Physicians designates this live activity for a maximum of 23.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Approved by the American College of Emergency Physicians for a maximum of 23.75 hours of ACEP Category I credit.

PRE-CONFERENCE

THURSDAY, FEBRUARY 27

0700-0800 **Registration**

Pre-Conference Workshops

0800-1200 & 1300-1700 Emergency Airway Management for Today's EMS Provider, *General – 4 CEs*

0800-1700 Instructor Palooza, *Instructor – 8 CEs*

0800-1700 Special Needs Children = Special Care, *Pediatric – 8 CEs*

CONFERENCE

FRIDAY, FEBRUARY 28

0700-0800 **Registration**

0800-0900 **General Session:** Overview of Ohio ASSIST Post Critical Incident Seminars, *General – 1 CE*

0900-0915 & 1015-1030 **Break & Networking with Exhibitors**

0915-1015 & 1030-1130 **Concurrent Breakout Sessions (Choose 2)**

I'm Old and Confused and I Don't Know Why?, *Geriatric – 1 CE*

Self-Care for Public Safety Personnel, *General – 1 CE*

Mobile Stroke Units: Is that a CT scanner in the back of your ambulance???, *General – 1 CE*

1130-1150 **Break & Networking with Exhibitors**

1150-1250 **Lunch & Awards**

1250-1340 **General Session:** Bizarre and Unusual Case Studies: You can't make this stuff up!, *General – 1 CE*

1340-1400 **Break & Networking with Exhibitors**

1400-1500 **General Session:** Ramblings of a Proud Old Paramedic, *General – 1 CE*

1500-1510 & 1610-1620 **Break & Networking with Exhibitors**

1510-1610 & 1620-1720 **Concurrent Breakout Sessions (Choose 2)**

That SMELL, the LOOK, now TREAT it!, *General – 1 CE*

Everything You Need to Know About Hepatitis, *General – 1 CE*

Ultrasound Use in the Prehospital Setting, *Trauma – 1 CE*

1720-1730 **Break & Networking with Exhibitors**

1730-1830 **General Session:** Optimizing the Prehospital Care of the Violent Patient, *General – 1 CE*

SATURDAY, FEBRUARY 29

0700-0800 **Registration & Breakfast**

0800-1000 **General Session:** The Forensic and Medical Evaluation of Non-Fatal Strangulation, *Trauma, 2 CEs*

1000-1015 & 1115-1130 **Break & Networking with Exhibitors**

1015-1115 & 1130-1230 **Concurrent Breakout Sessions (Choose 2)**

The Assessment and Identification of Human Trafficking, *General – 1 CE*

When Childbirth Goes Wrong: Managing Complications in Field Delivery, *General – 1 CE*

EMS Myth Busters, *General – 1 CE*

1230-1315 **Lunch & Last Networking Break with Exhibitors**

1315-1515 **General Session:** The Living Forensic Evaluation of Gunshot Wounds, *Trauma – 2 CEs*

1515-1530 **Break**

1530-1630 **General Session:** Mastering the BLS Airway, *General – 1 CE*

1630-1645 **Break**

1645-1745 **General Session:** Heat Illness in the Athlete and the Crossover to Firefighters *General – 1 CE*

1745 **Conference Adjourns**

PRE-CONFERENCE WORKSHOP

Thursday, February 27

0700-0800 REGISTRATION

Note: Meals will not be provided. You will be on your own for breakfast, lunch and dinner.

EMERGENCY AIRWAY MANAGEMENT FOR TODAY'S EMS PROVIDER (GENERAL - 4 CES)

0800-1200 or 1300-1700

Brian Bugbee, NREMT-P, EMSI, LMT; Tim Christman, BSN, RN, EMSI, Paramedic; Zach Justice, NRP, FP-C, Paramedic; Brad Wimmer, NREMT-P, FP-C, EMSI; Zach Wolfe, EMT-P, EMS, FP-C

This hands-on workshop will help attendees recognize the potential difficult airway, review current techniques for basic and advanced airway management, along with becoming familiar with new advanced airway tools. Additionally, it will provide an understanding of the options for pharmacologic administration for airway management. Each workshop is limited to 20 registrants.

INSTRUCTOR PALOOZA (INSTRUCTOR - 8 CES)

0800-1700

Ryan Ault, BS, NRP, EMSI; Brandon Bair, MEd, Paramedic; Charles Cattrell, BA Education, NRP, EMSI; Robert Cornwell, BS, NRP, EMSI, CMTE; Evan DeGiralomo, BS Education, Paramedic, EMSI; Shelby Loudon, BS, EMT-P, EMSI; Steve Maffin, BS, EMT-P

During this eight-hour instructor workshop, you will learn the 25 Things I Didn't Learn in Instructor School because even the most seasoned of instructors have the capacity to further develop their teaching skills. Led by three former classroom educators turned firefighters, paramedics and instructors, this highly interactive workshop will convey themes from the education world including research-based teaching methodology, assessment building, and technology integration that seamlessly apply to the classroom and training ground. In addition, to round out the day we will have sessions that explore Dealing with Difficult Students, Tips and Tricks for Realistic Moulage, an update on the CoAEMSP standards, as well as a discussion about using art and illustration to teach complex subjects.

SPECIAL NEEDS CHILDREN = SPECIAL CARE (PEDIATRIC - 8 CES)

0800-1700

Rita Chambers, BBA, NRP, EMSI; MaryAnn Forrester, RN, NRP, EMSI

Caring for the child with special needs presents a unique twist to an already rare experience for most EMS personnel. This daylong session will review some medical, behavioral and emotional needs as well as common technology, care devices and community programs designed to help manage these special children. The day will be a combination of lecture, discussion, hands-on skills and scenario simulation. This workshop is limited to 24 registrants.

CONFERENCE SCHEDULE

Friday, February 28

0700-0800 REGISTRATION

Note: Breakfast will not be provided. Lunch will be provided.

GENERAL SESSIONS

0800-0900 OVERVIEW OF OHIO ASSIST POST CRITICAL INCIDENT SEMINARS (GENERAL - 1 CE)

Steven Click, First Responder Liaison, Ohio Mental Health and Addiction Services

This session will provide an overview of the Ohio ASSIST Post Critical Incident Seminars. The seminars are 3-day seminars for first responders and a support-person (spouse, friend, co-worker), to help them deal with traumatic and critical incidents they have been involved in. The seminars include large and small group interactions; meeting with clinicians; discussions about addiction, relationships, faith, and resilience.

0900-0915 BREAK & NETWORKING WITH EXHIBITORS

0915-1015 CONCURRENT BREAKOUT SESSIONS (1)

I'M OLD AND CONFUSED AND I DON'T KNOW WHY? (GERIATRIC - 1 CE)

Andrea Zickmund, NREMT-P/FF, Flight Paramedic

"Medic 3 you have an 80-yr. old patient who is confused." Altered mental status of the elderly is a frequent type of call and easy to get tunnel vision on. This presentation will cover the numerous reasons the elderly population can be confused and give the EMS provider a new outlook on the geriatric AMS call. It may not be just because they are old! Upon completion, students will be able to: list different causes of AMS in the elderly, identify the signs and symptoms of each cause, list the different treatments of each cause and summarize the reasons for elderly AMS to reduce tunnel vision to make each elderly call a learning experience.

SELF-CARE FOR PUBLIC SAFETY PERSONNEL (GENERAL - 1 CE)

Steven Click, First Responder Liaison, Ohio Mental Health and Addiction Services

This program gives first responders techniques, ideas and suggestions on how to take care of themselves while they take care of everyone else. Often, first responders can forget to take care of themselves.

MOBILE STROKE UNITS: IS THAT A CT SCANNER IN THE BACK OF YOUR AMBULANCE? (GENERAL - 1 CE)

Julie Goins-Whitmore, RN, MBA, EMT-P

Not every EMS or fire department has the opportunity to work with a mobile stroke unit in their service area. During this presentation, we will look at how mobile stroke units are integrated into local EMS systems. We will explore the flow of a mobile stroke unit run and delve into the benefits associated with a pre-hospital CT scan of the brain, treatment that commences in the field and how it impacts additional treatment at a stroke center. Case reviews and performance data will illustrate the benefit that mobile stroke units bring to the patients and communities they serve.

1015-1030 BREAK & NETWORKING WITH EXHIBITORS

**1030-1130 REPEAT CONCURRENT BREAKOUT SESSIONS (1):
CHOOSE 1 FROM ABOVE**

1130-1150 BREAK & NETWORKING WITH EXHIBITORS

1150-1250 LUNCH & AWARDS

GENERAL SESSIONS

**1250-1340 BIZARRE AND UNUSUAL CASE STUDIES: YOU CAN'T
MAKE THIS STUFF UP! (GENERAL – 1 CE)**

Andrea Zickmund, NREMT-P/FF, Flight Paramedic

A review of bizarre case studies that the presenter has actually experienced that will bring to light the importance of thinking outside of the box and not getting stuck in tunnel vision when dealing with complicated calls that are not textbook scenarios. This lecture will discuss the importance of patient assessment and prioritizing treatment plans when multiple medical and trauma issues exist together. Participants will: understand the importance of scene size up even when call seems benign; recognize the importance of thinking outside the box to avoid tunnel vision; decipher how to mix trauma with medical and recognize where do you start? How do you prioritize? They will also understand how to put it all together and be able to identify what emergency to treat first

1340-1400 BREAK & NETWORKING WITH EXHIBITORS

GENERAL SESSION

**1400-1500 RAMBLINGS OF A PROUD OLD PARAMEDIC
(GENERAL – 1 CE)**

Lou Ann Metz, OFE, NRP

This session will look at the last 30+ years of EMS through the eyes of a paramedic who has seen the changes and challenges of the job. The session will discuss the changes in not only science, medicine and technology, but the changes in providers and the environment in which they work. There will also be discussion of what the future may hold with respect to those areas.

1500-1510 BREAK & NETWORKING WITH EXHIBITORS

1510-1610 CONCURRENT BREAKOUT SESSIONS (2)

THAT SMELL, THE LOOK, NOW TREAT IT! (GENERAL – 1 CE)

Andrea Zickmund, NREMT-P/FF, Flight Paramedic

Burn calls can be some of the worst calls an EMS provider can get. This presentation will review the burning process, the possible causes, and the specific treatments of burns, including special populations. It will also discuss the difficult fears all FF/EMS professionals have of getting burned and the uphill battle of recovery and the inevitable question after recovery, "Now what?" Participants will be able to: understand the definition of burns, degree of burns and anatomy of burns; list the different causes of burns; identify the treatment of the different types of burns including special populations; understand the importance of burn prevention by listing the statistics of FF/EMS burn victims, how to prevent them, and the difficult recovery from burns.

**EVERYTHING YOU NEED TO KNOW ABOUT HEPATITIS
(GENERAL – 1 CE)**

Susan Forgacs, RN, EMT-P

This session will cover the causes of hepatitis, the risk factors for EMS personnel and a review of strategies to prevent hepatitis.

ULTRASOUND USE IN THE PREHOSPITAL SETTING (TRAUMA – 1 CE)

Creagh Boulger, MD, FACEP

This talk will explore the evolving role of ultrasound in the prehospital setting, the potential evolution of the paramedic scope of practice, and its role in procedures and resuscitation.

1610-1620 BREAK & NETWORKING WITH EXHIBITORS

**1620-1720 REPEAT CONCURRENT BREAKOUT SESSIONS (2):
CHOOSE 1 FROM ABOVE**

1720-1730 BREAK & NETWORKING WITH EXHIBITORS

GENERAL SESSION

**1730-1830 OPTIMIZING THE PREHOSPITAL CARE OF THE VIOLENT
PATIENT (GENERAL – 1 CE)**

Craig Bates, MD, MS, FACEP

Violent or potentially violent patients represent a significant threat to themselves and to the prehospital and hospital-based staff who care for them. They require a team-based approach to assess for reversible emergency medical conditions while in parallel intervening with appropriate de-escalation interventions and, if needed, pharmacologic and physical restraints. This presentation will explore the potential etiologies of violent behavior by patients and provide the audience with a framework to assess and intervene to protect the safety of patient and caregivers. It will also discuss specific pharmacological options to use in common violent patient scenarios encountered in the field.

Saturday, February 29

0700-0800 REGISTRATION & BREAKFAST

Note: Breakfast and lunch will be provided.

GENERAL SESSION

**0800-1000 THE FORENSIC AND MEDICAL EVALUATION OF NON-FATAL
STRANGULATION (TRAUMA – 2 CES)**

Bill Smock, MD

This presentation is designed to assist medical professionals with the evaluation of non-fatal strangulation patients. The victim of strangulation has unique forensic and medical needs. Pre-hospital providers must know the signs and symptoms associated with near-fatal strangulation. A patient with no visible neck trauma may have a life-threatening carotid or vertebral artery dissection. Hospital providers must understand the dangers associated with the application of pressure to the neck and what radiological studies to order to prevent the discharge of an asymptomatic patient only to have them return with a stroke. The ability to render a human being unconscious requires less pressure than the strength needed to open a can of soda. Commonly held strangulation myths will be dispelled including

understanding how you can be fatally strangled and have no marks and no petechial hemorrhages. Additionally, this forensic program will review the physiology of strangulation, the long-term neurological consequences of strangulation and the pathophysiology of petechial hemorrhages and strangulation-induced anoxic brain injuries.

1000-1015 BREAK & NETWORKING WITH EXHIBITORS

1015-1115 CONCURRENT BREAKOUT SESSIONS (3)

THE ASSESSMENT AND IDENTIFICATION OF HUMAN TRAFFICKING (GENERAL – 1 CE)

Lara Wilken, MSN, RN

Human trafficking is a multi-billion-dollar criminal industry which denies freedom to nearly 25 million people around the world. This session will examine human trafficking and the role healthcare providers have in the assessment and identification of victims. During this session providers will gain a better understanding of both sexual exploitation and forced labor, analyze a simulation, identify red flags and explore ways to approach and provide resources to suspected victims.

WHEN CHILDBIRTH GOES WRONG: MANAGING COMPLICATIONS IN FIELD DELIVERY (GENERAL – 1 CE)

Joshua Borkosky, BS, FP-C, EMSI

Childbirth is a rare occurrence in the pre-hospital setting. The majority of cases involve an uncomplicated delivery of a healthy newborn. This presentation will prepare EMS providers for the rare, but stressful circumstance of dealing with complications during delivery. Among the topics discussed include: breech presentations, shoulder dystocia, prolapsed cord. We will also address basic neonatal resuscitation principles and potential maternal complications following delivery. Upon completion, participants will be able to: identify the steps of resuscitation of the distressed newborn; identify the steps of the HELPER mnemonic to manage shoulder dystocia; describe the management of various breech presentations; describe the management of a prolapsed cord and describe the management of maternal complications following childbirth.

EMS MYTH BUSTERS (GENERAL – 1 CE)

Rita Chambers, BBA, NRP, EMSI

Do you know why you perform certain tasks in EMS? Is it because "that's the way we've always done it?" This presentation will take a look at EMS practices and attempt to expose the practices based on myths versus those formulated from evidence-based medicine. All that is required is for you to keep an open mind and understand the "why" behind what we do.

1115-1130 BREAK & NETWORKING WITH EXHIBITORS

1130-1230 REPEAT CONCURRENT BREAKOUT SESSIONS (3): CHOOSE 1 FROM ABOVE

1230-1315 LUNCH & LAST NETWORKING BREAK WITH EXHIBITORS

GENERAL SESSION

1315-1515 THE LIVING FORENSIC EVALUATION OF GUNSHOT WOUNDS (TRAUMA – 2 CES)

Bill Smock, MD

This unique forensic program is specifically designed for hospital and pre-hospital providers in their evaluation of firearms-related incidents, including domestic and officer-involved shootings. This training, including hundreds of wound photographs, will provide you with the tools to improve your investigation and ensure your conclusions and findings are based upon the most up-to-date medical science and forensic evidence. Commonly held myths will be dispelled, including why the size of the wound does not matter and has no relevance in how to distinguish entrance from exit wounds.

1515-1530 BREAK

GENERAL SESSION

1530-1630 MASTERING THE BLS AIRWAY (GENERAL – 1 CE)

Joshua Borkosky, BS, FP-C, EMSI

When EMS providers think airway management, our minds often skip to the "sexy" airway topics like intubation, video laryngoscopy, emergency cricothyrotomy, etc. This presentation will take an in-depth look at the BLS airway skills that all EMS providers have to master. We will look at simple maneuvers that will improve everyone's airway management capabilities – the things that are taught in school but rarely reinforced in continuing education. We will discuss: proper patient positioning, effective bag-valve mask techniques, appropriate use of oropharyngeal and nasopharyngeal airways, suctioning, and review the advantages and disadvantages of the various extraglottic devices that are available to EMS providers. Upon completion, participants will be able to: predict patients for whom various airway management techniques may be difficult; identify proper techniques to position the patient and effectively open their airway; discuss techniques for delivering effective bag mask ventilations and discuss methods to appropriately select and place various extraglottic devices.

1630-1645 BREAK

GENERAL SESSION

1645-1745 HEAT ILLNESS IN THE ATHLETE AND THE CROSSOVER TO FIREFIGHTERS (GENERAL – 1 CE)

Robert Flannery, MD

Heat illness came into the public's perception in the early 90s with a prominent athlete death.

Since that time, much research has been done and we are doing a much better job preventing those deaths. However, there is still a knowledge gap within the first responder community as to how to treat these athletes initially. This lecture will look at how to triage and treat heat illness in athletes and how the research can be used to help treat and prevent heat illness in fire fighters.

1745 CONFERENCE ADJOURNS

Registration Deadline is February 10, 2020

Please print clearly. Incomplete forms cannot be processed. Payment must be received in order to process.

First Name	Last Name	Credentials (EMT, RN etc)	
Mailing Address	City	State	Zip
Phone	Email address (confirmation sent via email)		

☐ Vegetarian Meals ☐ Check here if you are a Fire Chief or Assistant Fire Chief.

PRE-CONFERENCE Workshop Selection			
THURSDAY, February 27, 2020			
Workshop Please select one 8-hour workshop	Time	Price	Select
Emergency Airway Management (AM)	0800-1200	\$100	<input type="checkbox"/> am
