

Thank you for your interest in participating in the 2021 Ohio ACEP Poster Competition. This year's competition will be 100% virtual utilizing a showcase portal in the PheedLoop platform.

**Poster presenters will be required to upload the following items to the virtual platform:**

- 1.) **Abstract as a PDF:** the abstract you submitted with your application
- 2.) **Poster as a PDF:** created in the same manner/format as a poster presented on-site
- 3.) **Video of Presentation:** 2 to 3-minute MP4 recording made in PowerPoint or Zoom  
(*Note:* This recording can be made using PowerPoint with synched audio or by using Zoom. Your recording should highlight key findings, data and results to further support your virtual poster.)

**Video Recording Tools – Recommended Options to Create an MP4 File**

Since we are utilizing a third-party virtual conference platform, we will not be able to accept other file types. For options below, there are numerous instruction videos on YouTube:

**Option 1: Create a Video/Audio Using PowerPoint**

Create your poster slides in PowerPoint including timings and audio and then save your file. Export it as a VIDEO and it will save your animations, audio, timings etc.

**Option 2: Create a Basic Recording Using Zoom**

To make a recording, simply login to your account (you can obtain a free account if you don't have one). Click "Host a Meeting" with Video On. Then click Share Screen to share your PowerPoint slide. You will see a side-by-side view of your poster and a window showing you as a speaker. When you are ready to present, click the record button. When you are finished, click Stop Recording and your file will save to the cloud or your local computer.

***Upon acceptance to the competition, poster presenters will be provided with details outlining the instructions to upload the recording and additional files to the platform.***
